DIRECT CREMATION SERVICE

Our Direct Cremation option allows for a simple, straightforward cremation service that removes much of the worry and cost from you at an already difficult time. Also referred to as an 'unattended cremation', it is where a cremation takes place without any form of service whatsoever.

Direct Cremation is our simplest service, there are no options, having signed the paperwork and arranged payment, we simply bring the deceased into our care, prepare them and place them in our simplest coffin and provide care of the deceased till a date and time of our choosing to take them to the crematorium in a suitable vehicle. The cremated remains can be collected by the applicant or scattered in the crematorium grounds. This is a non-attendance cremation, mourners are not permitted to attend or request music.

The basic price is £1,600. The only extra is if we have taken the deceased into care out with normal office hours.

Full advance payment is required for this package.

WHATS INCLUDED

- Arrangements completed at our premises
- Our professional services
- Bringing the deceased into our care during normal office hours up to 20 miles
- Preparation of the deceased
